

Photoshoot Prep

Are you ready for your closeup? Follow these tips to get ready for your professional headshot photoshoot.

Get lots of sleep.

In the days before your shoot be sure to get to bed early so you look refreshed.

Drink Water.

Lots of water can help your skin look healthy. (Maybe lay off the keg stands for a minute.)

Get a fresh haircut.

It's worth it to feel neat for your shoot, and will save retouching time.

Choose several different outfits.

Come prepared with a few different looks. Pick different colors and styles of shirts and jackets, you may be surprised what looks best on camera.

Go light on makeup.

Use just enough to look pulled together and not washed-out on camera. If you're not used to doing it on your own, consider hiring a makeup artist to help you out.
