# bright crowd

Social Media Check

- Log out of all your social media profiles.

- Google yourself to make sure you aren't missing any! (MySpace: still a thing.)

- Check out each account as a random (un-logged in) internet person. Check for**:
  - Profanity
  - Grammar
  - Sexual Content
  - Party Pictures
  - Political Stuff
  - Drug/Alcohol Use
  - Violence/Weapons

- Delete content you don't like, or lock down your privacy settings (whatever you prefer.)

**Remember, everyone has different personal standards. You never know what a recruiter might find objectionable. Make choices that reflect your values and your risk tolerance.*
